PERMIT NO. 1031

Greetings to all of our valued customers and friends! Pool Season is finally here and both our Walworth and Webster stores are now open 7 days a week to serve all of your pool and spa needs. Let us test your pool water for a beautiful, healthy and clean pool. American Pool Supply has a state-of-the-art free water analysis system at both stores. Remember, we at American Pool Supply are dedicated to educating our customers in the maintenance and operation of your swimming pool. We are always happy to take the time to hear your questions and explain to you how to best solve your pool problems. Let us show you how to make your pool more fun and less work.

Our Service Department offers openings, closing, weekly maintenance and leak detection. Additionally, we repair heaters and pumps, install new filters, pumps, heaters and covers. We are the best and we are happy to be your swimming pool service company. We are currently in the process of converting our news letter from standard mail to email. Please go to our website and sign up for our online newsletter as we will be discontinuing our mailed version very soon!!! This will help keep our prices down and allow use to give you a few more sale items more often. We will never give or sell your email or personal info to anyone!!! Hope you enjoy the summer and thank you for your patronage and loyalty!
